

Butterfly Breastfeeding Nipple Shields with Sanitizer Case

Dr. Brown's® unique butterfly-shaped design contours to the breast for a better fit.

- 100% soft silicone shield is thin and has a natural feel
- Butterfly-shape allows for more skin-to-skin contact
- Use for overactive letdown, flat or inverted nipples, or latching difficulties
- Additional holes are more anatomically correct for more natural feeding
- Microwave sanitizing case also conveniently stores nipple shields when not in use
- Use of sanitization case eliminates 99.9% of bacteria, mold, and yeast that cause thrush
- Available in two sizes: 20mm and 24mm
- Nipple shields are temporary tools to use under the supervision and guidance of a Physician, Lactation Consultant or other healthcare provider to ensure proper use
