

Zero-Resistance™ Bottle System

4 oz/120 mL Narrow Specialty Feeding System

Designed to assist in managing and treating complicated oral feeding issues requiring a compression nipple. This may include conditions such as cleft lip/palate, tongue tie, lip tie, oro-neuromotor dysfunctions, congenital heart disease, or craniofacial anomalies.

- Promotes “Infant-Directed” feedings
- Typical feeding bottle design; fully reusable
- Helps decrease gassiness/air intake and burping with non-squeeze method
- Compatible with any of the Dr. Brown’s® Narrow Nipple levels
- Each bottle system purchased comes with 1 additional Infant-Paced Feeding Valve*
- BPA free
- Assembled with an Infant-Paced Feeding Valve* and Level 1 Narrow Nipple
- The full bottle system is dishwasher, microwave steam bag, and steam sterilization (autoclave**) safe

*Infant-Paced Feeding Valves are not available for individual purchase

**Autoclave recommended not to exceed 30
